Subject: Continued Technical Discussion on Dico Site

Hi, looking forward to our follow up tech call next week.

I've noted to this team that we will be providing information to City Council at a workshop at 7:30 am November 20 on the Dico site being the preferred location for the future police headquarters. We will also reference the school district use. I believe that our technical sessions the last few weeks (months and years!) will be beneficial as we move toward more public forums. We will have some staff prep meetings before the 20th, with the first one scheduled for Friday November 3 at 3pm.

As you can imagine, there are going to be questions from City Council and possibly the public. While it would be great to have all of the answers and a defined path by November 20 (yay!) that may not occur. We would greatly benefit from the EPA and DNR continued presence for Q and A on the site as our staff preparation meetings and forums occur. Mary Peterson had offered to attend meetings as needed, so I am repeating the possible interest we may have to include your agencies for technical reference. May we add this subject to the discussion at our tech call next week?

Thanks!

Rita Conner
